Public Administration: Concepts and Issues

Semester: I

Credit:04

Core Course: 103

Objectives: The course provides an introduction to the discipline of public administration. This paper encompasses Public Administration in its historical context with an emphasis on the various classical and contemporary administrative theories. This course seeks to help students understand important concepts, approaches and theories of Public Administration. The course aims to equip students with understanding of the latest developments in the field of Public Administration. The course will be useful for students who seek to understand and analyze broad transformations in the study of Public Administration in the course of changes in socio-economic and political life. The course also explores some of the recent trends, and how the call for greater democratization is restructuring Public Administration. The course will also attempt to provide the students a comprehensive understanding on contemporary administrative developments.

Unit – I 13 Hours

Meaning, Nature, Scope and Significance of Public Administration, Public and Private Administration; New Public Administration.

International Politics: Theories and Concepts

Semester: I

Credit:04

Core Course: 105

Objectives: This paper seeks to equip students with the basic intellectual tools for understanding International Politics. It introduces students to some of the most important theoretical approaches for studying International Politics. After having set the parameters of the debate, students are introduced to different theories in International Relations. It provides a fairly comprehensive overview of the major political developments and events starting from the twentieth century. Students are expected to learn about the key milestones in world history and equip them with the tools to understand and analyze the same from different perspectives. A key objective of the course is to make students aware of the Changing Nature of Warfare; Weapons of mass destruction; deterrence; conflict resolution, conflict transformation, The Nuclear Age and

its impact on
